—FOREWORD—

The theme of the 1953 Kimberleaves attempts to portray Kimberley as a sculptor who has smoothed the rough edges, and molded and formed the lives of its students during their Upper School years, seventh grade through twelfth grade.

We, the class of nineteen hundred and fifty-three, dedicate our year-book, with deep respect, affection, and appreciation, to you, Miss Henney, our devoted counselor and friend. With this dedication we try to express our gratitude for your sincere understanding and concern, and for your faith in us. Above all, we wish to thank you for the high standards and ideals that you have set for us.

SCHOOL

In 1906 a young teacher at the Montclair High School decided to start a school of her own. She was Mary Kimberley Waring, whose middle name was adopted for the school. On the day before the school opened, a kitten was born to the stray cat that the janitor had befriended. He regarded the event as an auspicious omen. Perhaps it was, for the Kimberley School has flourished ever since, surviving two world wars and several depressions.

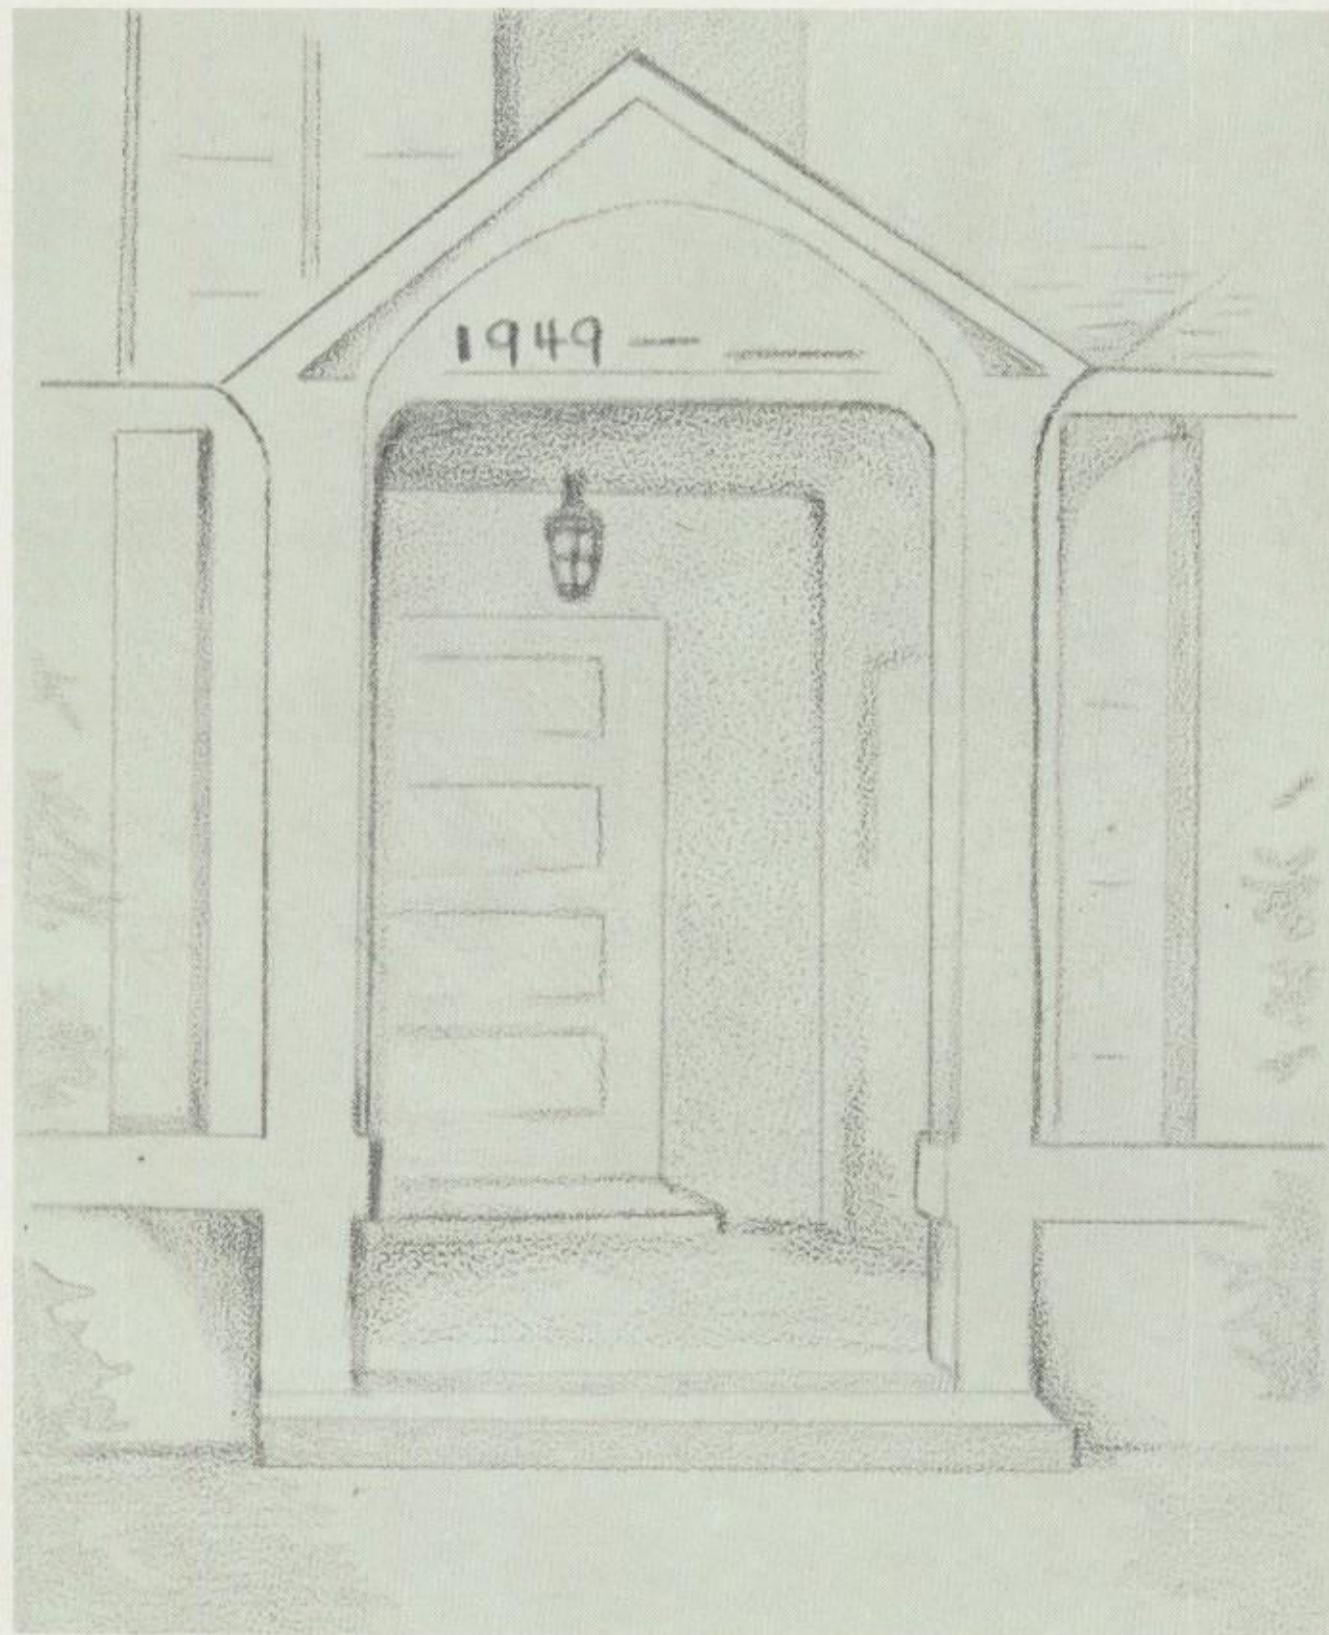

In 1909 Miss Waring took into partnership Miss Mary A. Jordan. She and Miss Waring had been classmates at Smith College, and Miss Jordan had previously taught at several other schools. That same year, the property at 33 Plymouth Street was purchased and before long, a new building was erected containing a gymnasium, study halls and classrooms. Later on, the shop and music box were added.

In 1910, Kimberley graduated her first class. Three out of the five members went on to college, and Kimberley has been a college preparatory school ever since.

In 1940 Miss Waring and Miss Jordan retired. Helen Burt Mason and Margaret Muir Gallie became head mistress and assistant headmistress respectively. Mrs. Mason had received degrees from Wellesley College and Columbia University and had been head mistress of the Milwaukee-Dowver school before coming to Kimberley. Miss Gallie, who had received her degree at Smith College, had been connected with Columbia and Oxford Universities before she came to Kimberley.

In the spring of 1941, Kimberley became incorporated. Since then there has been a board of trustees. Among its members were representatives from the faculty, the Home School Association, and the alumnae to assist the principal.

ISTORY

In the fall of 1947, Mrs. Mason left to take a position as head mistress of another school, and Miss Gallie became the new head mistress. As her assistant, Frances Reese joined the faculty. Before coming to Kimberley, she had been principal of the Brooke Hill School in Alabama. She left, however, and was succeeded by Miss Eckert the following year.

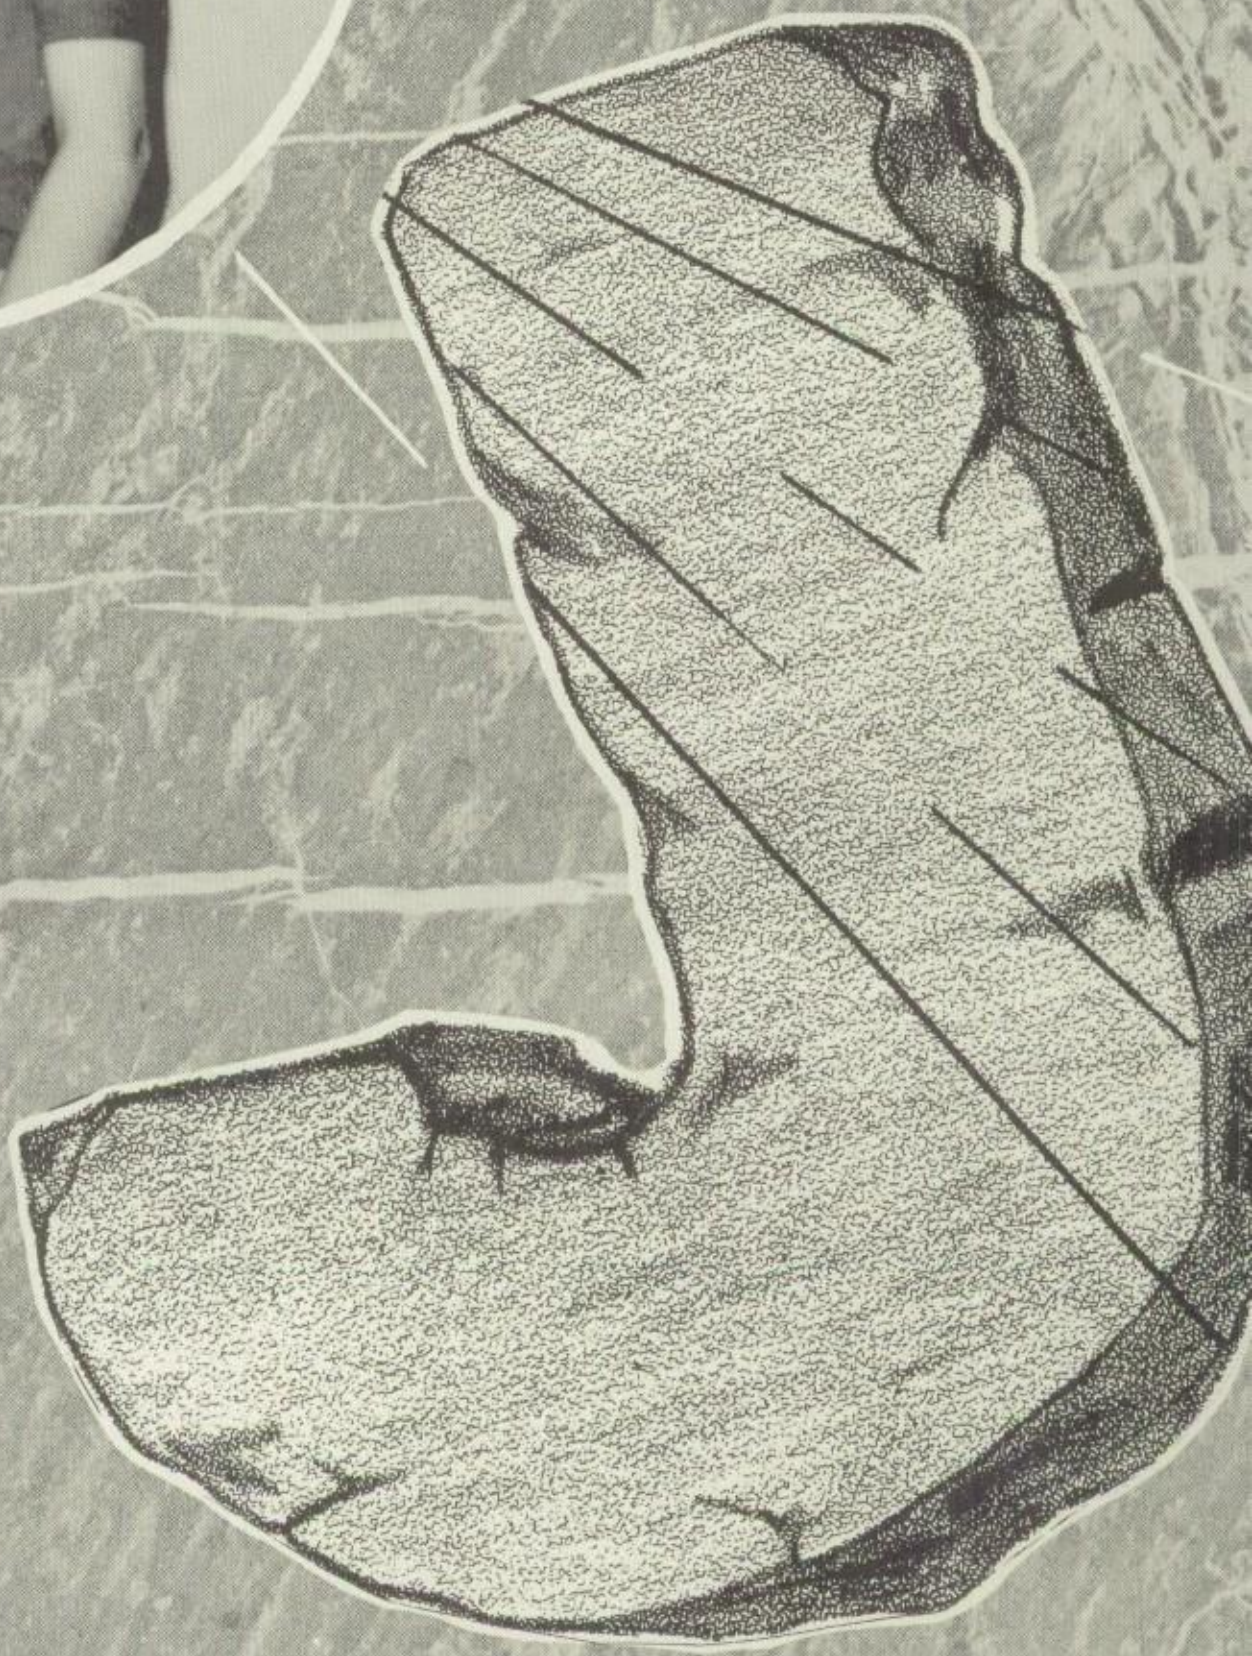

In May, 1949 Kimberley bought the Montclair Athletic Club with the intention of renovating it for use as the new Kimberley. That summer, the building was completely remodelled with a new dining room, kitchen, art studio, library, and many new classrooms. The pool, the gymnasium, the bowling alleys were luxuries, and on the spacious grounds were thirteen tennis courts, a baseball diamond and a hockey field.

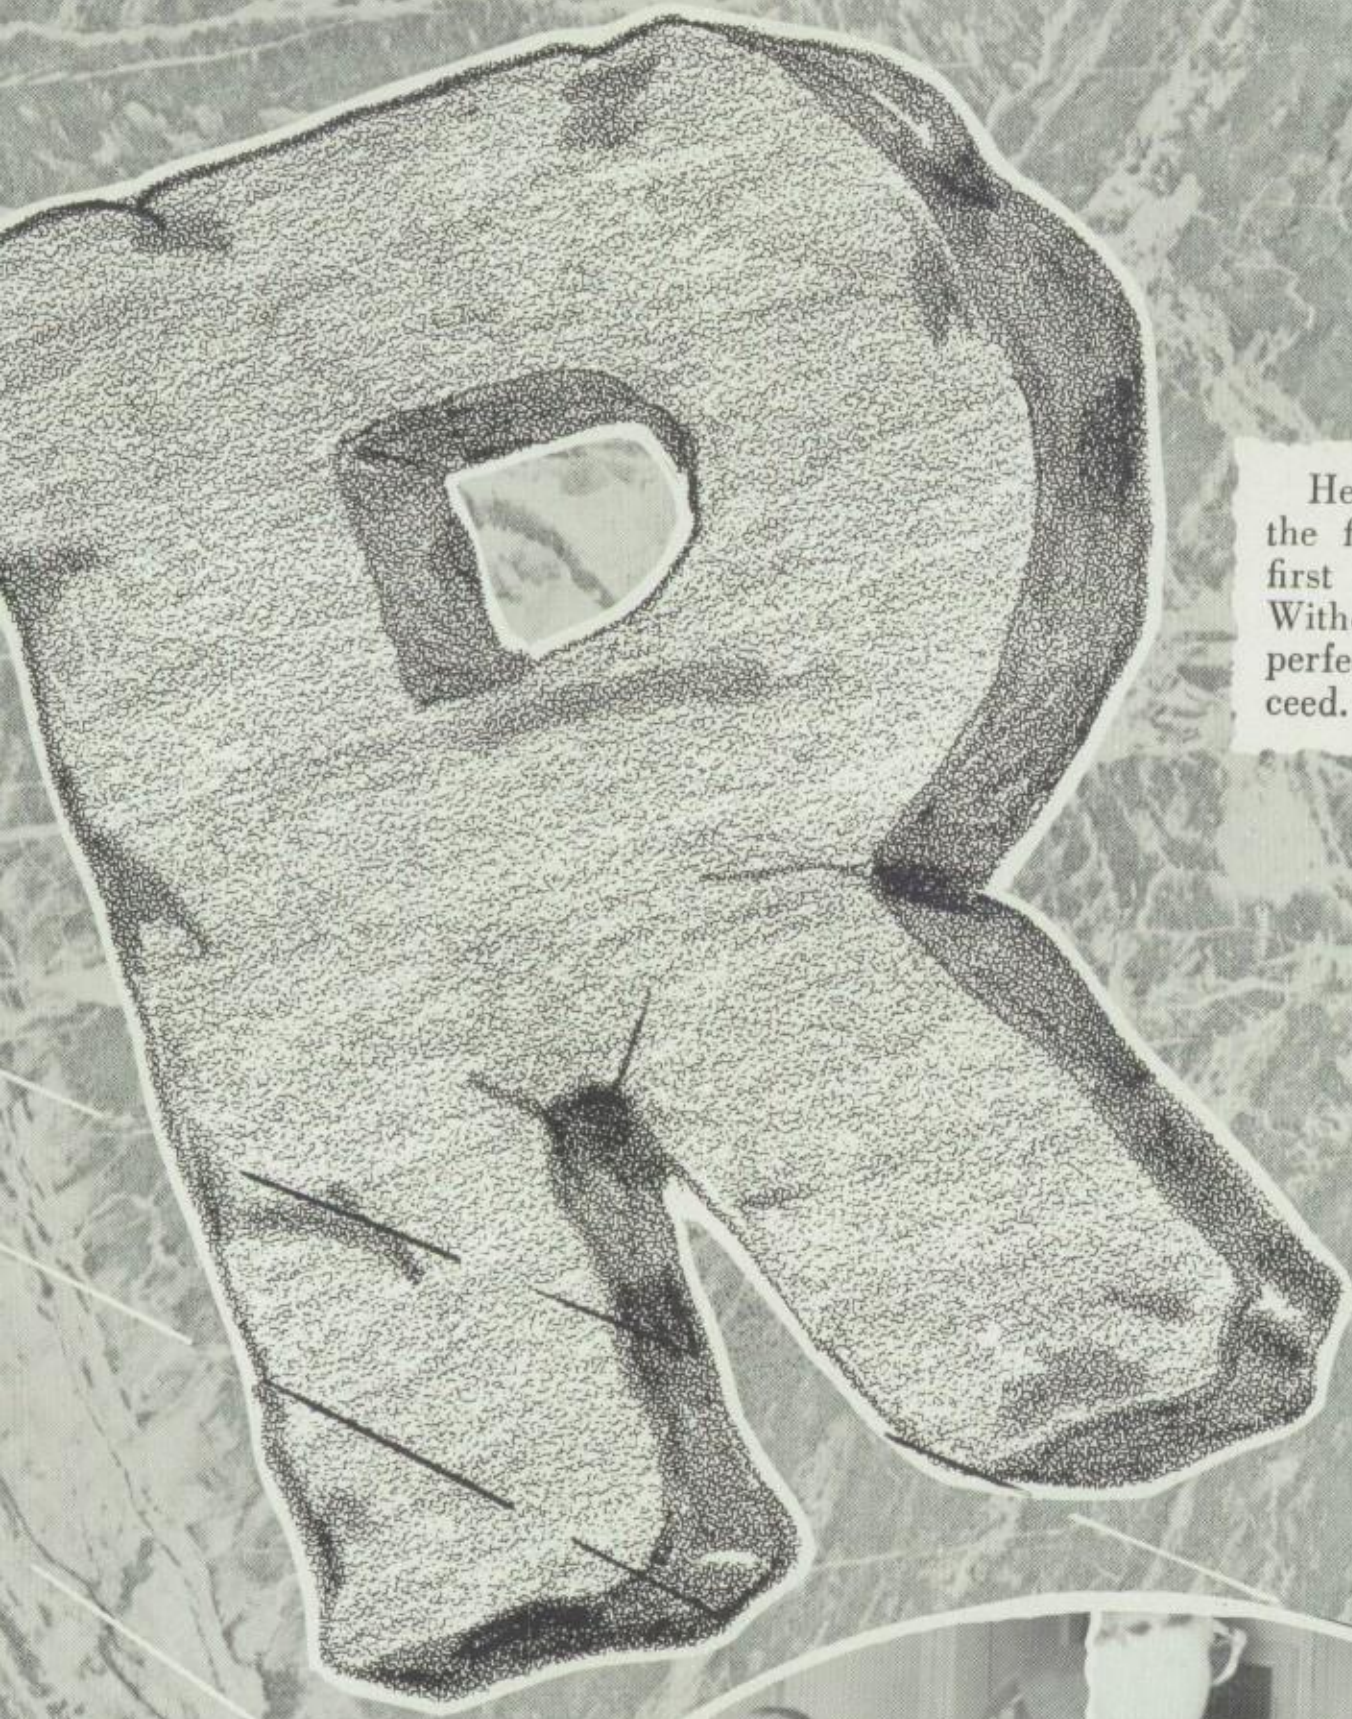

Miss Eleanor Henney took her position as assistant head mistress in the fall of 1949, after many

years of service to Kimberley both as a history instructor, and as the head of the upper school. The following year Miss Gallie left us, and was replaced by Ethel M. Spurr. Previously head of the Northrop School in Minneapolis, Miss Spurr had received her Bachelor of Arts degree, Summa Cum Laude, from Radcliffe College, her Masters degree at Columbia University, and did graduate work at Harvard University and the University of Minnesota.

In September the school moved to its new quarters and took great pleasure in the brightly-colored halls and classrooms. At last, the school could separate itself into convenient and comfortable sections: primary, lower, junior high, and senior high.

In the last three years, Kimberley has rerooted itself in the newsoil, and its motto "Labor, Inspiratio, and Amicitia" has doubled in meaning and content for those who love it and stand by it and enforce it.

Here are the clay and plaster of the finest quality. The sculptor's first need is supreme materials. Without them, he is incapable of perfection, with them, he can succeed.

SEVENTH GRADE *Material*

The seventh grade began its first year in the Junior High School with great hopes for the coming year, and with four new classmates added to our small but ever increasing number. The new students were Margaret Brown, Edith Seely, Georgia Beckley, and Judy Deich.

We made our debut in Upper School activities with the fine assistance of Miss Bosshard, our class advisor, and Mrs. Dallery at "Fall Frolics." Following "Fall Frolics", we attended the much looked forward to Father-Daughter Dinner with the rest of the Upper School. Then in November, the Senior Class treated us to a party at South Mountain Reservation. Unfortunately, it began to rain, so we doused our fire, and all drove back to Barbara Schatzman's house to continue the party in all its gaiety.

One of the most important projects headed by the seventh grade was the collection of toys for poor children at Christmas. We were very proud of the results, realizing that this little effort on our part brought joy to many less fortunate children. We have enjoyed hockey, basketball, and swimming plus volley ball and bowling this year under the instruction of Miss Mason and Miss Stone.

Our class had the good fortune to be included in a group that visited New York, to hear "The Mikado". In January we visited the Montclair Museum to see an interesting exhibit of American pottery.

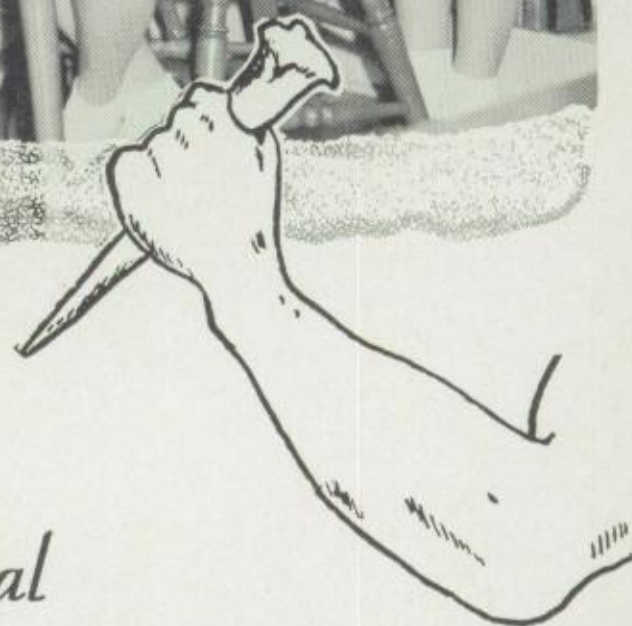

This year, as the youngest members of the Upper School, we became part of the school government. We all hope to be back again next year to complete another step in our life at Kimberley.

EIGHTH GRADE *Material*

The eighth grade has now completed the second step in its life at Kimberley. This year proved to contain a rather full program. We gladly welcomed Thelma Miller as a helpful addition to our rapidly progressing class.

Our class possesses many potential Kimberley athletes. We began our brilliant athletic career by challenging and successfully defeating the seventh grade in hockey. We then tried our skill in a game against the ninth grade which ended in a tie. After the ninth grade game, we held an intra-class hockey game between the Kimber team, and the Lee team. The Lees triumphed. As for basketball, we have played and defeated the seventh graders, but we were overcome by the ninth grade. In the following years, our class will certainly rank high in the field of athletics at Kimberley.

One of the greatest climaxes of the year thrilled us at "Fall Frolics" when our class skit won second place in competition with the skits of all the other Upper School classes. It was entitled "The Kimpurrley Toys". Next year we have set our hopes on winning first place.

In addition to all the fun of being eighth graders, we have discovered that as we advance to higher levels, the challenge becomes greater. However, we are looking forward to next year as ninth graders, our last year of Junior High School at Kimberley.

NINTH GRADE *Material*

September saw the entire ninth grade back again at Kimberley with a big, spacious, home room all to ourselves. We were all very happy to welcome ten new girls—Linda Lovell, Shirley Smith, Carol Van Brunt, Tanya Wood, Martha Andrus, Carol Cooper, Judy Lindeman, Sue Scales, Gill Brisbane, and Bobbie Coven.

After much work on the part of Abbie Ludlum, Sue Crook, Ann de Vausney, and Missy Turnbull, assisted by Mrs. Roth, our advisor at that time, we went before the footlights at "Fall Frolics" with a skit about a very shy secretary who spends her vacation in Hawaii. Martha Andrus played the part of the secretary. Also during the grand march, Sue Scales won a prize for her costume.

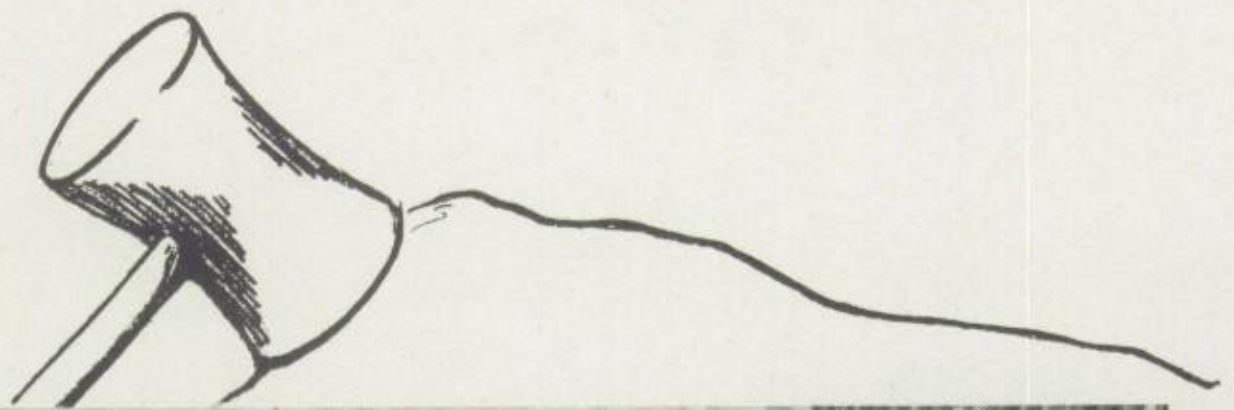

Under the direction of our new class advisor, Miss Mason, we took our part in the Kimberley Karnival with a booth called the "Post Office". We wrote to the alumnae asking each one to donate a package for our table. We also sold Santa Clauses made by the fifth grade.

In sports we won the volleyball, hockey, and basketball games against the eighth grade. Tanya Wood, one of our outstanding riders, entered the Montclair Horse Show and won two blue ribbons in the maiden and novice classes.

We shall never forget our freshman year, our last year of Junior High School, and we are looking forward to beginning a new phase in our life at Kimberley.

JUNIOR STUDENT COUNCIL*Ideas*

The Junior Student Council has been newly organized this year. It consists of the president, vice president, and student council representatives elected from each class in the Junior High School, who each serve a year term. Our purpose in forming this group was to develop in the girls, a sense of responsibility about our school, and consideration for each other.

Miss Renz, as the Council's advisor, has guided us in our organization, and has helped us with the

difficulties that arose because of our newness to our jobs.

We of the Council, would certainly like to thank Miss Renz, and all the students of the Junior High for their aid and cooperation, without which we could not have made the Council a success. We would also like to thank the Senior Student Council for giving us the valuable experience of governing ourselves, and teaching us the functions of a school Student Council.

The Sophomore class began the year of 1952-53 with three new members, Nancy Joyce, Caroline Cox, and Jackie Byrne.

No sooner had we started the school year, than the class held a "hen party" at Carol Cloke's. Soon after came "Fall Frolic". Our class presented a skit entitled "The Autobiography of a Famous Actress", which was directed by Barbie Ives. Then we all were caught up in the traditional sophomore whirl

of arranging the Father-Daughter dinner. In preparing for this important event, Mrs. Dunn, our faculty advisor, gave us wonderful assistance. She has also aided us greatly throughout the entire year.

Our class is very proud of its athletic record. Three members, Carol Cloke, Roberta Smith, and Diny Brown, reached the finals in the National Horse Show at Madison Square Garden, and we

were especially proud of Diny who won the Good Hands class.

In sports at school, Maggie Ramee made the Junior Varsity hockey team, Carol Turtle was selected for the varsity hockey and basketball teams, and also for the North Jersey Honorary Hockey Team.

Several girls from our class had parts in the Kimberley-Academy play, "Sight Unseen". The

leading roles were played by Barbie Ives and Jackie Byrne. Prissy Cole and Carol Cloke had minor parts.

Socially, our class gave a dance in the Spring. We also attended the Spring Prom.

It is not too much to say that during our first year in the Upper School, the activities of the Sophomore class have been not only enjoyable, but also successful.

The Junior Class is famous for its unusual ability of working on and accomplishing many jobs quickly and thoroughly. The Juniors are usually seen cramming lunches, organizing class day, dragging type writers, or shooting baskets. Picture Tilly-Jo and Kit making their deadline for the "Kourier"; Janet and Leslie getting their "Kourier" committees' articles in on time; Patty, Cy, and Anita racing to the pool; Lynn collecting money, money, and more money; Rosie skiing; Anne Van Vleck skating; Georgia, Dawn, Karen, Bobbie, and June running out to squad practices; Lee and Phyllis painting scenery; Casey arriving just on

time for class; Penny and Mary Lee selling the indispensable recess cookies; Aubin and Taylor, Sylvia and Pixie, playing duets; Gael, Fluffy, Mimi, and Nell knitting socks for their brothers (?); Amy incessantly spraining her ankle; Maree and Marion laughing their contagious laugh; Anne W., Jean, and Anne A., staring in the K. A. plays; Robin and Jackie taking pictures; Vicki coming in after the bell rings; Dorie rushing to get ads; and last but not least, Tookie, the class president; begging for one hundred per cent attendance at class meetings.

SENIOR CLASS...

The Senior Class welcomed Gwen Heinzen, Judy Cox, and Charlotte Niese to its ranks this year.

Our first big undertaking was the "Fall Frolics" skit. Our skit was entitled "Macdeath," a satire on the major events in Shakespeare's "Macbeth". Our cast included Joann Kirchner as Lady Macdeath, and Margie Olds as Macdeath. The subtleties, we regret to say, were not appreciated by our class, who had just recently finished studying the original version.

With Betty Ann Jones as A. A. President, Ellen O'Donnell as Kimber Captain, and Jane Moore as Lee Captain, the Senior Class had quite a representation on the Athletic Association. In addition to this, many seniors were chosen for the hockey and basketball squads, and some also participated in the major Kimber-Lee game. Ellen O'Donnell upheld our reputation by being chosen for the North Jersey Reserve Hockey Team.

For years, Kimberley students have wanted school book covers. This year, with the aid of Anne Shields and Joyce Hellum, our class sponsored the first printing of the yellow and green covers. The art work was placed in charge of Joyce Hellum. Since we now have passed the major hurdle of paying for the plates, printing reorders

bookcovers will be cheaper and more profitable. The big events for the social season were the "Tinsel", the annual alumnae, parents, and senior class dance which was held at the Montclair Golf Club on December 20, and the school prom, attended by the three senior classes. The orchestra for both dances was Lester Stein, and both were successes which added much to the senior social whirl.

The 1953 edition of the "Kimberleaves" was one of our main projects. Much of the time was taken up with committees, meetings, cover designs, lettering and pictures. With our able Editor, Leah Jacobs, and our Assistant Editor, Lolly Penick, we know our yearbook will be a success.

As our senior year flew by, we spent much time preparing for college. We will always cherish our seemingly happy days at Kimberley for the friends we have made, both on the faculty and in the student body, and the wonderful background and preparation we have gained throughout the years. We thank Kimberley for forming and molding our lives from seventh grade up through eleventh grade, and for leading us down the path of perfection.

STUDENT COUNCIL . . . *Ideas*

This year, the Student Council has been divided into two separate councils, one for the Junior High, and one for the Senior High. This gives the Junior High a preliminary opportunity to learn the functions of a Student Council, and a chance to analyze and solve its own problems.

The Senior Council is composed of elected representatives and the presidents of the tenth grade through the twelfth, and the heads of the various school organizations. The Student Council, as the governing body of the student association promotes cooperation and friendship among the students, and between the faculty and the students. It sees that the regulations of the school are followed, and it

sponsors many of our activities. Some of these this year have been the new-girls tea, the "Fall Frolics", the Father-Daughter dinner, and the Spring Prom. In addition, this year's council rewrote the school handbook and revised its constitution.

The Council feels it has been very fortunate in receiving excellent support and cooperation from the school this year. We wish to take this opportunity to thank Miss Spurr, the faculty, and the student body for all their aid and backing. With everyone working together for the benefit of the school, we feel that this year will be a memorable year in Kimberley history.

Chest

The Kimberley Chest Organization is similar to a miniature Community Chest which provides for refreshments and decorations for school functions, as well as sums of money for numerous other charities, voted upon each year by the members of the school. Some of these charities in the past have been The Pine Mountain School, The Near East Foundation, World Students Service Fund, and we are very proud of our support of a French boy who sends us many interesting letters and pictures.

The Chest co-operates with other organizations of its kind, and last year was represented at a conference in the Beard School to

discuss charity in independent schools.

The highpoint of the Chest's activities this year was the fair, "The Kimberley Karnival", which included everything from a fashion show and auction, to games and a fortune teller. We also raised money by sponsoring a dog show and cake sales, aside from voluntary donations.

This year we have sent money to refugee children in Europe, Polio, and relief to Holland during the floods. The rest of our money was divided among other equally important charities, and we feel that this year has been extremely rewarding.

Kourier

During this year, the "Kourier", the Kimberley publication, run by the Junior class, and issued five times a year, has undergone several changes. These include a major reduction in the size of the editorial and business staffs. In this way, we have taken advantage of the best and most competent reporters to write our articles. Another change centers around the addition of a new department, the Junior High staff. These reporters help to bring in news, that we would not otherwise be able to obtain, from the Junior High. In this way, we hope to interest the younger girls.

We would like to thank all our advertisers, subscribers, and staff members for their aid and support. Without them, the publication of this paper would be impossible.

McLean, Managing Editor; Beatty, Editor-in-Chief; Krebs, Business Manager.

We extend our very special thanks to our advisor, Mrs. Kalijarvi, who has stood by helpfully and patiently during our ups and downs throughout the year.

Good luck to next year's staff; we hope they will have as much fun working on this paper as we have!

GLEE CLUB.

The Glee Club was most fortunate this year in having Mr. Wallace Coursen as its director. Mr. Coursen is also the director of music at Montclair Academy. The Glee Club, composed of sixty-five girls, sang at the traditional Christmas Vespers and Commencement services in the First Congregational Church. Mr. Coursen altered the usual proceedings at Vespers by accompanying the singing on the organ, instead of on the piano. Another new innovation was placing the Glee Club in the choir loft—a pretty tight squeeze.

Each spring, the Glee Club presents musical programs. In the past, Gilbert and Sullivan operettas were

en, but recently joint concerts with Montclair Academy have been the attraction. After much preparation and concentration, the two schools met for several rehearsals, and finally were ready to present their program publicly. The climax to the affair is a well attended dance, immediately following the strenuous concert.

The Glee Club, since it is the largest elective in the school, is expected to hold high the standards of Kimber-ly. Under the excellent supervision of Mr. Coursen this year, we have earned a reputation which will be hard for other clubs to surpass.

ATHLETIC ASSOCIATION . . . *Co-ordination of Limbs*

This year, the Athletic Association and the entire school welcomed Miss Mason and Miss Stone as our new physical education teachers. With their help, and many diversified and contributive ideas, the A. A. has run smoothly throughout the year. The A. A. feels that sports play an essential part in our school life at Kimberley, for, besides furthering the school spirit, they teach good sportsmanship essentially, as well as athletic ability.

At the North Jersey Hockey Tryouts, held in the Fall, honors were bestowed upon two of our varsity players. Carol Turtle was chosen for the honorary team, and Ellen O'Donnell for the reserve team.

Our athletic schedule during the Fall until Thanksgiving was mainly hockey. A team tournament was also held. In the period between Thanksgiving and Christmas vacation, volleyball and bowling were the main sports. After Christmas, basketball and swimming took the spotlight, and after the basketball season, swimming and bowling. The Spring sports were softball and tennis.

Intermittently during the year, we all enjoyed Play-Days with other schools, which were sponsored by the A. A. In short, throughout the year, The Kimberley Athletic Association has done a superb job in managing the very important athletic curriculum in our school.

Hockey

During the months of September, October, and November, at about four o'clock in the afternoon, the Kimberley hockey field was jumping with action. Hockey season had come! Every afternoon, girls wishing to make the hockey squad, which consisted of the varsity, and the junior varsity met together. These teams were always subject to change by Miss Stone.

The varsity squad also competed in two outside games. The schools were Kent Place, and Dwight School. At the Kent Place game, the J. V. lost by a score of six to nothing, but the varsity came back and defeated Kent Place by a score of three to one. At the Dwight game, the varsity lost by a score of six to three, and the J. V. halted the Dwight girls by tying the score, one to one.

Early in November, the New Jersey Hockey Team tryouts were held at the Vail-Deane School. Out of the many girl's schools represented, Carol Turtle was chosen for the honorary team, and Ellen O'Donnell for the reserve team from Kimberley.

Aside from the varsity squad, there were many intramural hockey games, played among the classes, and between the Kimbers and Lees. In the big Kimber-Lee hockey game, the Lees won. In the interclass games, there were no unusual upsets. The final result was a tie between the Junior class and the Senior class, for the school class championship.

This year, Kimberley proved its high standard for athletic ability under the faithful guidance of Miss Mason and Miss Stone.

Basketball

Basketball, this year, was a principal sport on the Kimberley athletic program. The basketball season opened directly after the Christmas holidays, and continued through February.

The competitive schedule for basketball was made up of three main groups: interclass, interscholastic, and Kimber-Lee competitions. In the least important, interclass competition the ninth graders were the victors of the Junior High, and in the Senior High, the twelfth grade took the honors. Our interscholastic schedule staged three varsity games with Vail-Deane, Dwight, and Kent Place, and two junior varsity games with Dwight, and Kent Place.

The varsity and junior varsity were chosen on a competitive basis, and many practices were held after school, during the week. The final Kimber-Lee game was played on February 26, and the Lees won, well in the lead. On February 28, Kimberley met at Kent Place School with Kent Place and The Beard School for a basketball play-day. Four representative teams were chosen, one from each class, ninth grade through twelfth.

As a result of the diligent coaching of Miss Stone, Kimberley had one of the finest basketball squads, and basketball programs this year.

Bowling

For the first time, last year, bowling was introduced in Kimberley, with individual class and school teams. Competition was keen, and we discovered the presence of many girls with an unusual talent for bowling. No one has bowled a score of three hundred, but with some practice and the aid of Miss Stone and Miss Mason, perhaps someone will accomplish this feat yet! We are fortunate indeed to have professional, and well-kept bowling alleys, as few other schools possess, and because of this, we cannot enter into bowling competition with other schools. Therefore, we must confine ourselves to intramural class competition, and Kimber-Lee tournaments.

CHEERLEADERS ... *Evaluation of Spirit*

T-E-A-M, Yeah Team! This was the familiar cry of the seven girls in their green and yellow outfits, as they cheered our teams on to victory. Constantly on the move, they attended each game encouraging our teams, and drumming up school spirit in the spectators. These seven girls were elected by the entire school after each had her chance to display her cheering talents alone on the stage, in time for the first hockey game. The A. A. then chose Gwen Heinzen and Muriel Murphy as co-captains, to head the rest of the squad, Tookie Onderdonk, Lynn Towner, Joan Krebs, Georgia Sherman, and Sue Scales.

It was easy to recognize out of the whole student body, our peppy (?) cheerleaders, as they limped about,

and groaned about their aching muscles, resulting from the strenuous work and constant practice after school.

The day before each game, the gym rang with the boisterous cheering of presuming and spirited students who attended pep-rallies, comprising practically the entire school.

At the close of the 1953 school year, the co-captains, Muriel Murphy and Gwen Heinzen leave, thanking the squad for being the best that K. S. has even seen, and thanking the entire school also, for faithfully supporting their cheerleaders wholeheartedly.

First row, left to right: Heinzen (Co-captain), Towner, Murphy (Co-captain). Second row: Krebs, Onderdonk. Third row: Scales. Absent, Sherman.

"After the Game is Over"

For many years, May Day has been a Kimberley tradition. Previous to this long-awaited event, excitement reigns supreme amid the concealed whispers of the anxious seniors, and the hopeful inquiries of the other students. From the day the seniors are nominated and voted upon for the May Queen and her court, until the inimitable moment when the reginal queen appears on the steps, there has been much anxiety and behind the scenes planning on the part of both the students and faculty.

For weeks before this spring event, the girls in gym classes have practiced various folk dances and tumblers. Two versatile seniors have prepared all manners of flops, and have sharpened their keen wits, as they are essential figures in May Day, the court jesters. They come jingling onto the field in their old English jester costumes, and provide thrills and laughs for all.

Musically, the children in the lower school, and the girls of the upper school, practice during chorus period the light, traditional, Old English May Day aires which are sung intermittently during the program, and help to liven the festivities.

MAY DAY

When the anticipated day finally arrives, the audience remains full of tension while waiting for the program to begin. With an introduction by the bell ringers, the program proceeds, and soon the procession of girls trip gaily onto the green, dressed in brightly colored skirts, white blouses, and carrying boughs of spring flowers. The girls kneel and form a double row through which the May Queen and her attendants make their stately procession.

When the music starts, doors open to reveal the

six attendants of the May Queen, and finally the long-awaited moments when the May Queen appears. She and her attendants parade through the aisle formed by the girls, and the queen mounts the steps to the throne where she is crowned by the president of the Junior Class.

The festivities have now begun, and the May Queen is entertained by all the classes who perform dances, tumblers, songs, and the traditional Maypole Dance, for the rest of the afternoon.

SEMI

ARTS

And now, comes the culmination of all the efforts and talents of the sculptor. To reveal his statue, the sculptor displays it in a museum where all the world can see it, and it can see the world.

FROM FOUR

To coin a well-coined phrase, it does not seem possible that we, all girls from Ambler to West, are the come and go seniors of the Kimberley School. This fact, however, must be faced; Noting with some astonishment, that this article is to concern the history of the class of nineteen hundred and fifty-three, we had better begin our complicated, delightfully self-centered, and extremely affectionate history.

Somewhere around the Fall of:

1939—
1940

four scrubbed, solemn, shy little girls were dragged through the doors of the Kimberley School, 33 Plymouth Street. These innocents were not just "anybodies". We were none other than Lorna Peters, Joyce Hellum, Lois Creighton, and Lizzy Hopper. Apparently, we were little angels that year, because we can't remember any other memorable events.

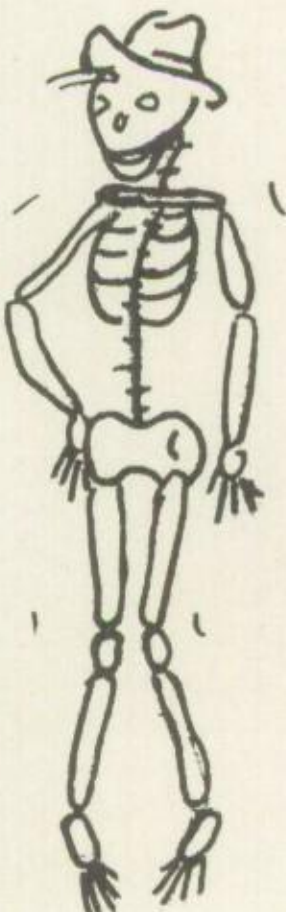

1940—
1941

Lolly Penick, Betty Jones, and Sally Luchars arrived and the class realized new power. Disregarding our former modesty and dull reticence, with five year old stamina, we set out to conquer the kindergarten world. We developed a palate for paste and crayons and chalk. Cannibals though we were, we soon relieved our estranged digestive systems by turning to art. We constructed miniature towns from crepe paper and cardboard. This project was not altogether successful, being that the paint for these towns was more effective on us and on our apparel; at least our parents were impressed! Presently we discovered new horizons and uncalculated adventures awaiting us in the nursery department's capacious sand-box. The results of this exploration need hardly be recorded.

1941—
1942

Reform! The word "learn" was added to our elastic vocabularies, and soon acquired an unpleasant connotation. The idea of growing up, both mentally and physically, was revolting. Consequently, we again consumed all chewable substances, until, undoubtedly, the average calorie intake of the Kimberley six year old, and the death rate was raised several thousand. We were bored long enough, at any rate, to become involved in the may court of 1942. Lizzy Hopper and Joyce Hellum were flower girls, Betty Jones and Lorna Peters, trainbearers, and Sally Luchars brought up the rear as page boy.

1942—
1944

These years have run together like green and yellow scarves in the rain. Every year we made an annual tour through the school, displaying our costumes with much giggling and embarrassment. Somewhere back there, we visited a farm, and began to learn French. We can't remember everything, you know.

1944—
1945

Primary school was forever in the past. We entered the lower school and with us, Sheila Brown. The extraordinary difficulties we had in grasping the multiplication table sent us into an exciting plague of mumps, from which only two escaped. As that year ended, however, the arrival of Daisy Hahnebach and Julie Stoney made us recuperate from our mumps—just for curiosity's sake.

1945—
1946

Unusually enough, we did visit the Museum of Natural History. We redeemed ourselves though, in the bubble-blowing episode, using small pieces of balloons. It was the beginning on an era of self expression. Most of the teachers survived.

... TO THIRTY-FIVE

1946—
1947

We remembered that Paula Brown, Ellen O'Donnell, and Carol Snow joined the ranks, and we showed our French conversational talents in the French Play. There was a new male in our midst, "Brother Bones", S. S. S. Skelton, esq., Kimberley Lab Closet, Kimberley, Montclair, New Jersey. How thrilling—but too popular—and too delicate!

1947—
1948

Jackie Ambler, Muriel Murphy, and Margaret Olds were the new girls. We attempted to learn to sew, but our ability, if any, was fleet. We were really growing up. Lanky limbs, pot-bellies, and painful hairdos, proved that the teenage menace was upon us. We traded cards, and we wore flowers in our hair. The unforgettable Miss Flannery patiently prepared us for the Upper School in manners, arithmetic, and practical matters. Then we graduated.

1948—
1949

Upper School and Cesca Cole, Leah Jacobs, and Linda Gerow. Capricious, awkward eighth graders were reputed for using Vicks for tear-jerking effects in study hall. We were duly punished on Friday afternoon for our "originality". We divided up into Kimbers and Lees.

1949—
1950

Most people know our history from then on. Patsy Eddy, Lyall McPherson, Judy Smith, Sally Maxson, and Margaret McVay enlarged us. We won our one and only Fall Frolics prize for our skit—something to do with making movies, wasn't it? The major event was moving our school to a new location in the Spring, leaving many torn memories, and thoughts in the dark halls of the "old school".

1950—
1951

New girls were Sude Armitage, Stevie Miller, and Anne Shields. We went to the Upper School "Prom". K. A. play with Muriel Murphy and Mickey in the cast. Glee Club gave "Pirates of Penzance". We were growing up!

1951—
1952

Juniors! O, but, last year's junior class was so old! Betsy Myers, Jane Moore, Barb Schatzman, and Joyce West were the new additions. "College, college, college" was our motto! We received our class rings in ceremony and deep feeling. We had our first "source themes", trial S. A. T.'s, and gave a classday performance with a lot of fun. Summer.

1952—
1953

Gwen Heinzen, Judy Cox, and "Char" Niese complete our number of 35. Not too long ago, we were a class of four. Are we really seniors, or just pretending? Are all seniors as insecure as we? We thought once that we were growing up, have we? These questions go unanswered in our minds. Isn't it true that no one ever reaches the highest level, the ultimate, perfection? We are all anxious, now, about our futures. When we think of our pasts, though, we will think of our protectorate and guide, our support and environment, as lying in the Kimberley School.

COMMENCEMENT

Perhaps, the most significant of the Kimberley traditions is the formal graduation ceremony of the Senior Class. The seniors, the perfected products of the school, while making an entrance into life and the outside world, exit from an old life. The realization of the importance of this step has a very sobering effect. While the entrance into the new life is exciting and challenging, the graduates are frightened by the tremendous responsibility of independence. The exit from high school is exhilarating, and at the same time sad and poignant, at the thought of the passing security and friendships.

Termst Feb., July, Sept.

Popular with Kimberley Girls

It is not surprising that so many forward-looking Kimberley girls come to Gibbs for their secretarial training. They have learned from their friends that Gibbs-trained applicants are favored for the better positions. And the Gibbs school is so convenient and attractive—in the building which was the former home of Kimberley — at the city centre.

One and Two Year Courses.
